ABOUT DURACON

WHO ARE WE?

DURACON is the PVC electrical conduit brand of **DURAFORGE INTERNATIONAL**, an Indian exporter of building material and hardware. Our rigid PVC conduit pipes, trunking and fittings give electrical wiring a safe, insulated and long-lasting path through walls, ceilings and floors.

PVC is a natural electrical insulator. Unlike steel conduit, it never rusts, is far lighter to carry and install, and its fire-retardant grade helps prevent flames from spreading along the wiring.

With a complete system of pipes in three strength grades, bends, couplers, elbows, tees, junction boxes and trunking, DURACON supplies electrical contractors, distributors and builders with everything needed for a neat, safe installation.

OUR MISSION

To supply safe, durable and easy-to-install electrical conduit systems that protect wiring and the people who rely on it, with consistent quality in every shipment.

OUR VISION

To become a trusted name for PVC conduit and fittings worldwide, known for strength, safety and long service life.
